

## TABLE OF CONTENTS

<b>Appendix A: St. Lucie Estuary/Indian River Lagoon Conceptual Model</b>	<b>A-1</b>
Introduction .....	A-1
Conceptual Model Approach.....	A-3
Performance Measures and Targets.....	A-14
References .....	A-16
<b>Appendix B: Oligohaline Zone Literature Review Report</b>	<b>B-1</b>
Introduction .....	B-1
Physical, Chemical, and Biological Processes .....	B-1
Buffer.....	B-2
Habitat Value.....	B-3
Discussion.....	B-11
References .....	B-11
<b>Appendix C: Hydrologic Simulation Program - FORTRAN Model for the St. Lucie Basin</b>	<b>C-1</b>
Description of the St. Lucie Basin.....	C-1
Overview of Hydrologic and Hydraulic Models .....	C-3
Overview of HSPF Enhancements.....	C-4
HSPF Model of the St. Lucie Basin .....	C-5
HSPF User Control Input Files.....	C-15
RCHRES Module .....	C-17
Calibration and Model Results .....	C-18
Water Budget for the St. Lucie Estuary Watershed .....	C-31
References .....	C-40
<b>Appendix D: Application of the Natural System Model to the St. Lucie Watershed</b>	<b>D-1</b>
Introduction .....	D-1
Model Specifications .....	D-1
Boundary Conditions.....	D-6
Hydrologic Processes .....	D-8
Results .....	D-10
References .....	D-15

<b>Appendix E: Predrainage Landscape Ecology and Hydrology of the St. Lucie Watershed Estimated from Historical Sources</b>	<b>E-1</b>
Introduction .....	E-1
Methods .....	E-7
Results .....	E-9
Conclusions .....	E-21
Recommendations .....	E-22
References .....	E-22
<b>Appendix F: Estimating the Extent of the Oligohaline Zone in the North Fork of the St. Lucie River and Estuary under Low Flow Conditions</b>	<b>F-1</b>
Summary.....	F-1
Background.....	F-1
One-Dimensional Analytical Solution.....	F-2
Two-Dimensional Simulation on Extended Estuary Grids with the RMA Model.....	F-8
Results .....	F-9
Conclusion .....	F-11
References .....	F-11
Addendum to Appendix F .....	F-12
<b>Appendix G: Current Projects Associated with the Indian River Lagoon SWIM Program</b>	<b>G-1</b>
<b>Appendix H: The Application of the St. Lucie Estuary Hydrodynamics/Salinity Model in the Indian River Lagoon and St. Lucie Estuary Environmental Study</b>	<b>H-1</b>
Area of Model Coverage and Data Collection Sites.....	H-1
Model Description .....	H-2
Model Verification .....	H-2
Impact of Canal Discharge on the Estuarine Salinity.....	H-3
Long-Term Salinity Computation .....	H-5
Salinity Computations under Historic (Natural), Present, and Future with Project Conditions.....	H-10
Model Assumptions and Limitations.....	H-10
References .....	H-12

<b>Appendix I: Scientific Peer Review Panel Final Report and District Response</b>	<b>I-1</b>
Scientific Peer Review Panel Final Report .....	I-3
SFWMD Response to the Scientific Peer Review Panel Draft Report .....	I-23
<b>Appendix J: Comments Received on the First Public Draft of the St. Lucie Minimum Flows and Levels Draft Technical Document</b>	<b>J-1</b>
Table of Contents .....	J-3
<b>Appendix K: Draft Preliminary Water Control Plan for the Ten Mile Creek Deep Water Storage Area</b>	<b>K-1</b>
<b>Appendix L: Selected Passages from the Florida Statutes and Florida Administrative Code</b>	<b>L-1</b>
